CLEANCHAIN Insights

The latest features, announcements, webinars, and industry news from around the globe.
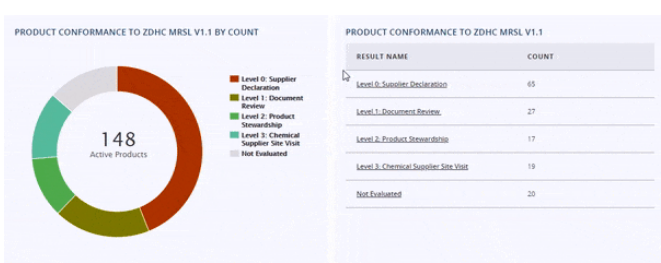

OCTOBER 2018

PRO TIPS
Peeling back layers of conformance

The **Product Certifications** Pie Chart reports on your compliance by conformance level and product count.

You can also use the report to find which products fall into each conformance level, and to find products that are not yet evaluated.

Using the table on the right of the pie chart, click the corresponding conformance level to reveal each individual product by name and manufacturer.

View your Dashboard

PRODUCT UPDATES
What's new with CleanChain v2.3?

The newest version of CleanChain introduces solution modules. Solution modules bundle familiar features in the Navigation Menu, so you can find what you are looking for faster.

You can now find the familiar inventory upload feature under "Input Chemistry". The process has not changed at all - it is the same feature bundled in a new menu.

Check Out the New Menu

To Upload Inventory:

1. Click **Input Chemistry,** then
2. Click **Add Inventory**
3. Click **Upload**.
4. Click **Choose File** and select the excel file to upload.
5. Click **Upload**.
6. Select the worksheet that contains your chemical inventory data.
7. Click **Save**.
8. You have successfully uploaded your data to CleanChain. The CleanChain team will process your file and notify you when it is complete. **This process can take up 3 – 5 business days.**

FEATURE OF THE MONTH
Be smart—save time with Bulk Product Upload

Uploading your chemicals in your inventory to CleanChain one-by-one can be extremely time consuming.

Why not try out the **bulk upload** function instead?

Go to:

1. Input chemicals
2. Inventory
3. Add Inventory
4. Upload

Choose the spreadsheet of your full inventory.

Save time and be more productive by uploading chemicals in bulk periodically. This can be performed daily, weekly, monthly, or quarterly, based on your preference.

Follow our step-by-step guide to try it out for yourself!

COMMUNITY NEWS
We want your feedback!

In October, ADEC Innovations sent out our first round of supplier feedback surveys, a new program we are rolling out. Scheduled periodically, these surveys are specifically designed for each user. We want to continue to improve CleanChain and bring you value, and your input is crucial to this goal. Your responses are anonymous and will help drive the future of CleanChain.

Get in Touch

When you receive a survey, please fill it out promptly. You may complete the English or Chinese version. We always welcome feedback, so feel free to contact our team directly at cleanchain.team@adec-innovations.com.

CLEANCHAIN LEARNING SESSIONS
Join the conversation

Sign up for one of our weekly CleanChain Learning Sessions and get advice from subject matter experts on topics like chemical inventory list (CIL) terminology, inventory uploads, and best practices from other CleanChain users. Or, you can simply ask any questions you may have and receive support during the session.
